Trumpels In The Morning

by Perry D. Neel, Postor First Bestlet Church, Bay St. Louis,

Life is worth living-but it is only worth living when we realize that every breath that we breathe is from God. From He Stoke-Mandeville Apart-ments in Aylesbury England comes the assouncement of the comes the amountement of the mouth actinated whetrical switch that apatient can operate by adjusting his breathing. He may be totally paralyzed and still answer a telephone, adjust the television set or type up to 100 words a minute by breathing regularly in and out.

We have always known the importance of breathing since one's breath is all that separates the living from the dead

sies the living from the dead but now new importance is at-tacked to the power of breath-ing in that totally disabled perms can use even their breath

to perform simple chores.

It is interesting to compare the breath of God whoh was a vital element in Creation. As God was fashioning man from the raw elements of nature! He breathed into his mostrils the breath of life's so that, man became a living soul. No man can ever be the same after he realizes that he is not a mere mimal of creation but that he has been inbreathed with the very breath of God Himself II. paralyzed man can type 100 ords a minute by breathing, it is no mystery that the breath of God could create a man in the peginning. We have so much to be thankful for and sometimes we just do not stop and thank our Heavenly Father for all the riches of His Giory that he gives to us each day. Jesus one day saw crowds of people

coming toward Him, so he want

up on a hill and when he had sat down his disciples gathered around Him and He began to teach them. "Happy are those who know they are spiritually-poor the Kington of Heaven belongs to them. Happy are those who mourn, God will comfort them. Happy are the meak they will receive what God has promised. Happy are those whose greatest desire is to do what God requires. God will satisfy them fully. Happy ar those who show mercy to others, God will show mercy to them. Happy are the pure in heart they will see God. Happy are those who work for peace among men, God will call them His sons, Happy are those who suffer persecution because they do what God requires, The Kingdom of Heaven belongs to

them. Happy are you when man insult you and mistreat you and tell all kinds of svil lies against you because you are my followers. Rejoice and be glad who lived before you." These writings from Matthew's Gos-Beattudes, They encourage in every area of our life.

The Kingdom of Godbelongs to them who trust and obey and follow Him completely. Are you a follower of God? Do you know God through His Only Bagotten Son, Christ Jesus, if not, why not come to Him now? Bay St. Louis has a chance to come to God, The time may be short I urge all who readthis column to prepare for the coming again of Christ Jesus as King, STRAIGHT AHEAD,

because a great reward is kept for you in Heaven. This is how many mistreated the prophets pel, the fifth chapter, are the

NASA-MTF Funding Included In Report

9382. Appropriation for the care in the original \$20 million re-Department of Housing and Ur-duest, with \$13 million designant. Development and other agencies", was submitted late Tuesday with the inclusion of \$18.5 million of the NASA fund-ing to be used for the space

shattle program.

The original legislation in the House contained \$20 mile Hon for this program but it was deleted, and retained only in the Senate version.

Following appointment of Senate and House conferences, Congressman William Colmer, who salvised the report of the conferees, was in touch with the House members in an attempt to get the space shattle money remarked.

The compromise of \$18.5 million represents approxi-mately the same amoust of finite

nated for the main engines test facilities and the centaining \$5.5. million for the thermal protection facilities.

MTP was designated earlier this year as alle for engine testing and a contract has already been announced for the start of needed alterations to the existing Samm V test spans at the Site.

"It is most important", sta-ted Coliner, "that we do ev-snything possible to assure full uses of the excellent facili-ties at MTP, Most important too is the employment of our trained and experienced persomel, each benefiting the other or on these research and development programs which keep this country moving forward."

Fire Department Ladies

Auxillary Formed in Bay

The newly formed Ladies first meeting at the Pire De-grillary of the Bay St. Louis periment Training Center, Va-ire Department will hold a lens C. Jones School, August 5, at 7:30 p.m.

There are stready nine members in the amplifary, a spokesman said and mamberspokesman said and member-ship is open to all women reals dents of Hanonok Comby who are 18 year problem over.

Membership is not restrict-ad to wives objectible objective firshes, assistanticities for Fri-lox said.

We just want fit ladies to join who are interested in help-ing to make this commenting a safar place for the children

a safer place for the children and residents? he said. For further information, Frilour may be called at 46%

Commenting on what has happened in two years, Mayor Garileld Ladner said, "It truly has been a Gargantuan indertaking and we are by no means finished with our job, but at least we are slowly beginning. Waveland would everyise again, to see some light, With God's Like most residents, Mayor continued help I know we will Latiner was shocked at the descomplete the job."

The Board also authorized Mayor Ladner to contact other cities along the Mississippi Gulf-Coast, advising them of what had happened, and auggesting that similar proclamations be issued by the sister cities. It Was the thinking of Waveland's Aldermen that aftention should he focused on one individual city each year.

The suggestion was that attention be focused on Waveland this year, since on this August 17th Elwood Recreational Park will be rededicated. Originally dedicated to the memory of Course Line #9: Valerie Waveland resident to the memory of Elwood Bourgeois he first Waveland resident to the memory of Bourgeois he first Waveland resident to the memory of Elwood Bourgeois he first Waveland resident to the memory of Elwood Bourgeois he first Waveland resident was memory of Elwood Bourgeois he first Waveland resident was memory of Elwood Bourgeois he first Waveland resident was memory of Elwood Bourgeois.

Makeighelogic Approves Special Civic Holiday

Two pears ago, after the cor-nations had gone and the hury-case winds had substited, and the of the resolution, is to be set raging waters had returned once more to the open sea, Mayor Lather surveyed the yest dam-age which, in a brief few hours, had been meted out by Camille. There could be no doubt - this indeed was the greatest natural disaster in the satire history of the United States. Along the six mile beach front of Waveland, more than 90 percent moth help which came from gov- of all homes were totally seeernment agencies, organizati- troyed, and the few remaining were hadly damaged. The rown had no water, no electricity;

was indeed a forlors commun-It seemed impossible, on the morning after Camille, that

traction. Summer resolved firm of the accountive damage done to other colast outles a Bay St. Louis, Pass Christian, Loug Beach, Goliport, - Mastissippi

City, and Biloxi.
In light of what had happen-ed, many surakters could well wonder why sayone would remain in Waveland. Yet, at the time of Centille, Waveland was called a town - now, because of population growth, it is listed as a "city" although a maformy of the residents still call it "the town."

Not only have the residents, appearing on the horizon.

and those who owned summer borned on the beach, rebulk but the solvers some 200 of their sales a 5 to 1 major-try even of those a nood house to the lover could get the finds to mainly a federal grant in acquire a marki-million dollar

And under Waveland Operation Lipsum which came into being about 15 months ago, burndrais of homes, through loans and grants have been brought up to code standards.

Alse, sometime near year, Wavelend, which is a part of the Bay-Wavelend School Sys-tem, will dedicate a brand new school. Unquestionably, the job is far from being completed, but by the same token, the first stream of light gradually are

Winter Grazing Profitable

Winter grazing of stooker calvas can be highly profitable services J. W. (Bill) McKie Extension agronomist at the Roplarville Extension and Research-Confer.

"To be successful it must be planned in detail and carried inrough to the end of the grazing season," he said, "Sich a rooten families high fertilisation, intensive management and heavy finendial commitments. Unless such a program is followed, if is advisable to other social whier grazing of section relives."

I said selection is important Mustr grazing about winter grazing of section with hold cattle are well without bogging in set wester. It should have good internal and external drained, alightly rolling theirs procase the most forage and usually the greatest number of days of grazing.

lous proportions with six cadents of breaking in and dog their in the past two monate. Zechery Blackwell, city dok Warden, said a good bit of dame age has been done to the pound gate and fence by persons who have apparently backed up a truck or car to the fence and scaled the burbed wire for entry into the pound yard,

A total of 68 dogs has been let loose from the pound in the last 60 days, Blackwell said, He. caught three juveniles in the act on one occasion and has through his own investigation, discovered methods used by others, which Blackwell said are definitely used by older persons.

The pound, which is situated on Third St. one block south of St. Charles St. is on an isolated section of land surrounded by wooded, unoccupied property. Blackwell has worked diligently on maintenance and upgrading the pound premises and the condition in which the. impounded animals and the grounds are kept attest to his abi-

An accurate log which Black-well keeps on the animal pound revealed details of the last two incidents; July 9-8:15 p.m., 17 dogs in pound. July 10-6:15 a.m., found gate had been pried open, latchbroken. All but three dogs released. Three dogs left of the miscreants is known had remained in vicinity of pound and were waiting to be

July 21-6:30 a.m., heavy steel gate broken off hinges.

Local Students Visit P.R.C.

Registrar Al Brooks was pleased with the number of Picayune and Hancock County freshmen students that attended the pre-college conference held on Monday, July 26.

"There were about 50 more students from this area than wetrexpected it we have this turn out from each conference, we will set new enrollment records for 1971-72," stated Mr. Brooks.

stylengs were on hand to give stylengs advice in determining What courses to take.

Pearl River Junior College will have buses serving both Bay St. Louis and the Picayune

Louis area will leave Bay St. Louis High School at 6:50 a.m., leave Kiln at the crossings of a.m., Isave Steep Hollow at 7:55 a.m., and Isave Savannah Store at 7:50 a.m.

Buses serving the Sumrall area will leave Byrd's Shell Sarvice Station at 7:30 a.m., leave Pearl River Central High School at 7:40 a.m., and leave McNeill at 7:50 a.m.

The fall semester has an August 24, registration date.

CHECK THE RECORD, paved 14 miles of roads and built 30 miles of Shell and Gravel Roads, a total of 44 miles of roads without Bond Issues; and the present administration has paved only two miles of roads. When the Government falled to pay Hancock County for our roads in the test site zone, I took the position that if they were not going to pay for them they had no right to use them so I physically blocked these roads. As a result, the Government paid Hancock County '410,000.00, which was put under the jurisdistion of the County Engineer to pave roads equally in all five districts. By this method the people of rural Hancock County received an equal number of miles of paved roads from money acquired by this action. Flect-a fighter to get you out of the mud.

I am pledged to attack Community Problems Without regard to Beat Lines. A good County must have thriving municipalities as the hub of County activities, and as a base of governmental lincome for the good of the Whole. In recognition of this, I sent Beat I equipment into Bay St. Lovis in an effort to relieve the Froubles of our citizens there. The experience of the people in Bay St. Louis is a sacrifice on their part to create a better city within our borders for the common good of us all, and certainly the Board of Supervisors should cooperate in this.

Despite mistakes of the past, our industrial program is. GOOD for our County. It has been built largely with STATE and FEDERAL-Funds - Money which would otherwise now be elsewhere. Industry is the LIFEBLOOD of a community . I support and will FIGHT FOR OUR INDUSTRIAL PROGRAM, AND PROMISE JOBS FOR OUR YOUTH PERE AT HOME WITH THEIR FAMILIES.

T SAVINGS can be obtained from the adoption and implementation of the modified GOUNING UNIT SYSTEM. I Will sponsor this system and INSIST that sayings go to help DAY/SUNTOUS and WAVELAND where a large share of the county tax delitings

A 400 Per Cent Increase

In 1960, Japanese industry con

sumed 40 million pounds of pri-mary nickel. In 1970, this had

grown 400 per cent to over 200

million pounds. In 1980, esti-

mated demand for the versatile

element in Japan is expected to

be about 425 million pounds, or just 10 million pounds under total free world consumption of nickel in 1959.

For this youngster, his boat is extra fun because her made it himself from an empty Pure-Pak milk carton It was a simple and fun project.

Here's how it is done:

After the kids drink the milk have them take the empty carton and reseal the gable top with glue or staples. About two inches from the top, cut away the side paneling to create the cockpit. The gable top remains as the cabin. Spray paint, decorate, and attach a pull string.

The pull boat is just one of many toys kids can make from empty milk cartons.

After final use, paper board cartons can be crushed for clean, compact disposal, or used for neat, sanitary disposal of garbage. They are also blodegradable they ultimately decompose to substances natural to the environment,

Russell J. Elliott YOUR FULL-TIME - COUNTY-WIDE

BEAT 5 - SUPERVISOR

SEEKS RE-ELECTION

Please let me mswer a few of the political promises and/or criticisms made by my opponents in last week's issue of the Sea Coast Echo, July 22, 1971, concerning the role of Russell J. Elliott in county government.

*1 - The Beach Road is programmed for repair at no cost to the taxpayer and with no bond issue. Only the failure of some property owners to sign easements is holding up this program.

Junior College District and the county is paying millage for our young people to attend. This makes it our junior college as much as any body elses in the district. Hancock County alone, without a tremendous increase in taxes, could not support a junior college at this time. Only talk is cheap,

- We do have a Vocational Training Center acquired for Gulf Central Airport - Stennis Field to train both our young people and adults of all ages in technical skills to prepare them for higher paying jobs in industry.

14, 1970 (as recorded in that date's Issue of the Sea Coast Echo), my endorsement of a County Unit System. This is more than a year ago, not just before election.

*5 -- Hancock County's share (\$77,532,19) of the "We Care" fund money was evenly distributed to qualified citizens of Hancock County. This amounted to \$79.29 each. These names were all published in the Sea Coast Echo. All money went to the people directly. The board of supervisors did not have any control over the distribution of taese funds within the two cities.

*6 - Hancock County did not qualify for Upturn Money, because the program would have required 25% matching funds. One million dollars in Upturn Money would have cost you, the taxpayers, \$250,000 or an increase in taxes of 12 mills. Do you want your taxes raised that much? I

I have given you "Action" but my opponents have only given you words.

I am sorry some of my opponents have resorted to mud slinging instead of showing you their qualifications and how they can do better!

Again I ask, please check the many accomplishments for Hancock County that have been obtained under my administration and if you feel I have served ou well and have the best qualifications for continued progress please support

Thank you for the opports 11, you have afforded me to serve as your Beat 5 supervisor during the past three and

Support & Vois For

Richard "Dick" Thomes CANDIDATE FOR

Board of Supervisor

TO THE VOTERS

OF HANCOCK COUNTY:

For those who don't know me, the following is a brief

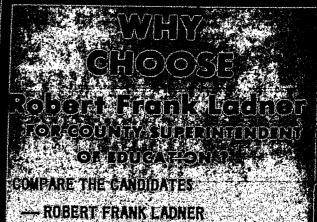

background on myself:

I am more familiarly known as "Coach Thames." While serving in the U.S. Navy and at Saint Stantslaus I coached football, baseball and boxing. Prior to my establishing residence in Bay St. Louis in 1947, I received my Bachelor of Arts and a Bachelor of Science Degree from University of Southern Mississippi. During my coaching tenure at Saint Stantslaus I was recalled to active duty with the Navy in the Korean Conflict. Upon my release from active duty

in the Korean Conflict. Upon my release from active duty with the Navy I returned to my home, Bay St. Louis, and completed my work for a Master Degree in School Administration and Supervision at University of Southern Mississippli. Recently I have completed 40 graduate hours beyond the Master Degree in Personnel and Guidance at Louisians, State University and University of Southern Mississippl. I am married to the former Gail Bourgeois, daughest of Mrs. Alice Bourgeois and the late Douglas Bourgeois. Presently I am temployed as a Guidance Counsaior by the St. Bernard Parish School Board. I am a member of the St. Bernard Parish School Board. I am a member of the Inversity of Southern Mississippl Adumni Association, Past President and member of the Executive Board of the "Mississippl Adumni Association of the USM Hancock Chapter, a Member of USM field of Fame, a Member of American Personnel and Cuidance Association, Louisians Guidance Association, Mississippl Guidance Association, Mississipple Guidance Association and Chapter Association, Mississipple Guidance A Louisians Guidance Association, Mississippi Guidance Association, and Greater New Orleans Guidance Association, Stanislaus Skieline Club, American Legion, V.F.W. and 40 & 8. Served 8 years as State Delegate to Louisians Teachers Association, and presently Treasurer of Bay St. Louis Parks and Playground Commission.

I served 23 years of satisfactory Federal Service having obtained the rank of Lt. Commander before retiring. During World War II while serving in the Facilité, I commanded several P.T. boat imits. In the Konsen conflict I served as Special Service Officer in the Naval Pre-Pilgit training Divisional Naval Guntire and Air Simoni Officer for the Fleet Manines, and two years as Assistant District Public Information Officer on the Bigtan Naval District State.

Many of you or your some thow me, and all I sat of you is to sak them what my, principleis are I believe in fair play and hand work. A MESSAGE TO VOTERS

FROM

Marie E. Quintini

YOUR CHANCERY CLERK HANCOCK COUNTY

TO THE VOTERS OF HANCOCK COUNTY: As First Primary Day, Aug. 3, draws nearer, I wish, once again, to appeal to you to consider all things carefully before casting your vote for Chancery Clerk of Hancock County, the post for which I seek re-election.

As the incumbent I am not in a position to make promises. I cannot preach reform, I cannot criticize, I cannot make

I can say that in the eight years I have served Hancock County as Chancery Clerk I have endeavored to run my office FOR my constituents; providing those services required

under the law, and many more besides.

To those who have found fault with the way I have admintetered my duties I say, errors are made by us all, even those
of us to public office. But HONEST mislakes are quickly and easily rectified.

To those who have supported me in the past I say a sincere thank you. And to all of the voters of Hancock County I say, lend me your support so that I can continue to serve with fairness and honesty for another four years.

Marie E. Quintini Chancery Clerk

Cleaning Aluminum

Can you advise nie as to hom to can clean the aluminum storm doors on my house? They are very grimylooking, and in the flat areas there seems to be ground-in dirt that setiled there when the road nearby way resurfaced.

Franklyn Arete, Smithtown, N.Y.

There are many chemical cleaners available for this purpose. The chemical is brushed on the surface, allowed to stand for about half an hour, then washed off with soap and water. Check with your local hardware store or supermarket to see what specific brands they carry.

Termite Terror

We have found evidence of termites around our house and wish to make it termite-proof. Our well is located under the house, and the pump is in the cellar. Will the water be contaminated by the poison used to exterminate the termites? K.T., Warsaw, Pa.

It is definitely dangerous to use termite-control chemicals near subterranean water supplies. Mechanical means should be used to exterminate the pests under these conditions. If you can't do the job, hire a reputable exterminator.

Painting Concrete

Our concrete front porch and steps are about 10 years old and have been painted three times, the last time two years ago. Before we painted, we carefully prepared the surface, scraping off all loose paint, "spotting" the bare spots, and giving the concrete a good coating of concrete paint, with no thinner or anything else odded, This winter, much of the paint (all three coats in most places) has scaled off, exposing the

a white firs (efforenceme) has appeared. Can you tell its what is happening here, and what can be done to remedy the struction? Emmett Larson, Chicago, Ill.

Exterior concrete dees not lend itself well to painting, as there is always a certain amount of water absorption by the concrete that knocks off the paint from the inside. Also, the alkali concentration in the cement causes the efflorescence you mention—this situation corrects itself in time and should be less of a factor as years goes by. Application of a silicone coating over the concrete as a scaler is highly effective in providing a base for paint.

Driftwood

I have found a lovely piece of driftwood and want to make it into a base for a lamp. What is the best

B. McMinn, San Francisco, Cal.

First scrub off all dirt with a stiff wire brush, then wash it clean with soap and water. Sand the rough spots smooth, if the seawater hasn't already done this, then finish it as you would any clear wood. You can varnish it, give it a coat of thinned shellac, or simply wax it. You can also stain it if you wish to change its color.

Some of the most commonly asked questions about perplexing homeowner problems are answered here. If you have a problem, ask us about it. We will answer as many as possible in this column. DOLPH KELAR RUNS ON HIS RECORD

MOREONEANCES

DOLPH KELLAR'S loyalty is to his family, his church, and other organizations to which he belongs, such as Masons, VFW, American Legion, and other civic gro ups, and to ALE PERSONS BELIEVING IN GOOD GOVERNMENT.

DOLPH KELLAR IS HIS OWN MAN; RUNNING HIS OWN CAMPAIGN!

He respects his friends too much to altempt to dictate their votes, but humbly solicits all votes and asks that you consider the following: POISON SPREADERS would have you believe that Dolph Kellar is in obstructionist because he has at times stood alone in his vote as Supervisor. I have at times stood alone when I thought my position to be for the best interest of the County and will continue to do so, not to fight individuals but for the public's best interest.

DOLPH KELLAR has performed well in all levels of County government while in the last 3½ years he has blacktopped six miles of road, worked his equipment over the entire County, and at the same managed to have funds in his Road and Bridge Fund at all times.

INDUSTRY: Four years ago Dolph Kellar promised to bring industry into the County. (Ingram Industries' plant at Kiln is a direct result of Dolph Kellar's efforts. If there be any doubt this may be verified with the plant manager, Mr. Peter DeMarsh.

DOLPH KELLAR has brought honor to Hancock County. The State Association of Supervisors has honored Dolph Kellar by electing him to the Executive Board of that Association five (5) consecutive terms. Never before has a supervisor from Hancock County served on this Board.

REPAY SOUND, ECONOMICAL GOVERNMENT BY VOTING FOR DOLPH KELLAR (

Egan We have recieved our 200 copies, Let's Taik About Drugs Booklets, which you made available for us from H. K. Simon Go., Inc. We wish to extend our appreciation to both of you, for I'm sure they are going to be a great help to us. With things developing among our people, as they have here in our county, the last few days, we can see the need of stressing the importance of the danger of drugs to our girls and boys each day. Thanks again for your generous consideration, Yours truly, E. E. Breland Principal |

Supervisor Beet One - Hancock County

Man for The People

"MY TEN POINTS FOR PROGRESS"

I. I shall always concentrate my untiring efforts toward the complete restoration and proper maintenance of your Beach Boulevard and sand beaches.

II. I shall work diligently to promote the proper and suitable types of industrial growth for Hancock County, in order to afford our citizens an opportunity to work at home.

III. In order to prepare our residents for local industries and better paying jobs, I propose a trade school within our

Port and Parbor I vill stilve toward energive Business
Management of this most important and ustribus.

V. It shall be my responsibility to purchase and mallic unity equipment and supplies in anyhonest and economic issuion. A County unit system has proven beneficial in many other areas and I am presently investigating such a plantion our people.

VI. [shall request an official public audit of Handock County Funds prior to taking office and when elected I will offer on a regular basis, a financial report of all public funds,

VII. I will institute a system of road building and main-tenance for our area, that will attract residential, commercial and industrial growth.

VIII. The municipalities of Bay St. Louis and Waveland will always receive dedicated assistance from my office toward solution of their problems.

IX. I will establish a constant line of communications with the various States and Federal agencies that will be associated with the progress of Hancock County.

As in the past, I shall always stand up for you, the cite of our County and strive towards decision makings, and always for the good of the majority.

An Expanding Role

Eller Best Utter Here in Health Alleren

ufactured by Piper Aircraft Corp. are all metal, structur-ally speaking, each of 18 current models contains at least 90 non-metallic components, primarily of thermoplastics and fiberglass. More than 500 of withese lightweight, durable and attractive parts are now

produced in two separate plastic plant areas. Various types of plastics and fiberglass are used extensively hoth in the interiors and for exterior surfaces. Of more than 200 fiberglass components produced, some of the larger are wing tips, prop spinners, engine cowlings, which speed fairings, rudder, and stabilizer tips, tail and nose cones, pas desenger and luggage compart-

It took five years and millions of additional research dollars

for AMF to develop a produc-tion line model of its Auto-matic Pinapotter in 1951. AMF installed 16 machines, into the Bowl-O-Drome in Mt. Clemens, Mich; which be-

came the first completely sustainated bowling center in history. The test was a success. The bowling boom was

duced by the company's fiber-glass operation is the chemical-hopper on the Pawnee agriculture plane. The smallest plastic part is the electric trim but ton mounted on control yokes. Other thermoplastic items notude interior trim, panel include interior trim, panel knobs and switches, fat shelves, air vents; and cable guides. The entire instrument panel face and windows are fabricated from pleatics. Vin.

yls and other "soft materials" are also for various forms of plastic.

ANIMAL FARM

WASHINGTON - It's not generally known, but NASA, whose eyes are on the stars, has had to look closer to home for some truly unusual help. For example, the agency has required the ansistance of chimpanzees, porpoises, mice, and more recently a wild elk.

Roaming its domain near Jackson Hole, Wyo., is a 500pound elk who newitting was beining MASA the Depart. ment of Interior and Smithsonian Institution in an experiment to learn more about the migratory habits of large animals The elk is wearing -electronic collar which twics-s-day communicates with the Nimbus 8 weather satellite orbiting the Barth at a 700-mile altitude. Data from the elk is transmitted about noon and midnight each days These days

above see level, light intensity and location. Ecologists hone the experiment will give them clues to the instincts that drive animals to migrate long distances.

We thought that was something until we learned this week that NASA soon plans to launch two frogs in project called OFO, for orbiting from otolith, it develops that otoliths (small quite similar to those in man's ear. By instrumenting the from's ear. NASA can learn more about the possible effects of weightlesenses of Dace flight on me

Invitation

Pareces Without Farmers m international organization of single parents—widowed, diwrest, separated or never married-extends an invitation to anyone in Hancock County who is interested in joining.

The organization was founded in 1957 to provide mutual help so that single-parent homes can better provide a happy family environment in which to bring up children. The pur-Doses are basically educational: with professional help, a program is conducted in which lectures, discussions, publicstions and recreational activities aid the individual single parent to cope with the many problems and dilemmas that must be faced in a single-parent home. Meetings are held weekly at the Billott U.S.O. center, starting at 7:30 p.m. Anyone interested is urged to affend.

he may prescribe to prevent the spread of VEE or other the spread of VEE or other infectious, contagious, or communicable diseases.

Louisians, Arkaness, Okishoms, and New Mexico were placed under rederal quarantine as of July 15, 197, by the Animal Health Division of the ISDA Transportations.

HANCOCK COUNTY

A BUSINESS WOMAN KNOWS

the county unit system is the answer to the waste of our tax dollar on inefficient, archaic methods of operation of county planning, building, and maintenance.

HOUSEWIFE KNOWS -

you must budget your money to stretch it — and you must not overspend. You must sliop for the best value. Sheralso knows you don't buy groceries for each member of the family separately — you buy for the family as a whole. The family system — not the person system.

AN INTELLIGENT WOMAN KNOWS -

to seek expert advice in fields requiring technical and specialized knowledge. She also knows the men willing to provide this assistance. A full timesengineer does overall planning - not patch work.

ASCONCERNED MOTHER KNOWS:

Tour people need wholesome activities and the community should provide facilities for them as well as for families. A community is as strong as

N'ACTA'E COMMUNEY

WORKER KNOWS! as the unitation of weder three and the obligation of public officials to meet the convenient times and places with the figure as the office.

YA WOMAN KRO

Authentication of the second o

Remember my 10th birthday, when you gave me that funny piece of green paper and everybody made such a (use over it. (Except me.) Frankly, it Was a pretty disappointing present for a kid. I couldn't est it, couldn't play with it, couldn't wear it-and Mom took it away from me practically the minute I got it.

And every birthday after that (and Christmas, too), you gave me another one of those Bonds, you called them. I thought you were pretty gooney.

At least, I never had to guess what I was going to get from good old reliable Aunt Sarah.

And what I got was good old reliable U.S. Savings Bonds.

What I didn't realize then was t you gave me a gift of security for t future. Thanks to you and the Bonds, I had extra funds for colle And they helped when I bought

Next week, I'm giving my nephev Harry, his first U.S. Savings Bon I know the kid is goons think I' some kind of nut. But, someday .

I, want to make this program a part of a broader approach of creating jobs throughout Hancock County, eWe must aid our people in qualifying for jobs. We must also make jobs available to keep them in Hancock County. With your support and cooperation this can be accomplished.

SUBMITTED TO YOU THE PEOPLE,

It has a more an aggressed most. There are two relatively simple methods to detect this pest. The traditional methodiass been to spread old sheets under the tree and shake the limbs. The insects can be easily seen on the speets, if they are present. This method should begin about the last week of July and followed throughout August at intervals in two to three days," he explained.

plained.

The other method Mr. Cochrand mentioned, was to build
control frame constructed of
control frame constructed under screen wire distributed under trees throughout the orchard. As the weevils emerge from the

In The Public Interest

Which is more in the public interest. Not for the expayers Virtually all in the discussion about the covernment of the \$1.4 billion TriStar investment updates of private benk loses for would be a tax lose cooling the belong the coolers of the \$1.4 billion TriStar investment updates to the taxpayers of 0.000 jobs at government at least \$500 million in lost the nation to a meter company. TriStar workers would cause a discrete the some \$70 million in personal ancome taxpayer as much as \$1 billion throw tax and Lockheed stock and bond 60,000 people out of work create a holders would add to the tax revenue cause the lose of virtually all of the suffer tax loses plus the added cost of

The jobs at stake include 34,000 on the TriStar at Lockheed and its suppliers, plus those indirectly affected if Lockheed has to abandon the L-1011 because of inability to get financing to convert \$1.4 billion in inventory into deliverable sircraft for which it has firm and local taxpayer of a Lockheed corders. If Lockheed abandons the bankruptcy could exceed \$1 billion, bankrupt,

Lockheed's crisis was triggered by two massive and nearly simultaneous blows. The firm sustained losses of nearly \$500 million on government imposed settlements of major contractual disputes with the defense department. And the plunge into People ask if there is not some risk receivership of Rolls-Royce, maker of to the government in turn, to the axpaver in the proposed loan

Loan guarantee opponents argue that bankruptey would be an easy solution, that a new corporation under new management could complete the L-1011 and Lockheed's government programs. Not so. The airlines have stated publicly that they cannot stand by their orders if this occurs. Lockheed bankruptcy is no easy solution for the firms, exporters, farmers have had \$4,000 people who would loss their federal aid. Most adult citizens splet lobs at a stime when the acrospace government guarantee on bank deposits industry has an unemployment level of or home loans. 24%. Nor for the sirlines, who would lose their investment of \$263 million. Nor for the suppliers in 35 states with a total TriStar investment of \$880

monopoly in a case named market, and loss, braze and local governments would cause the loss of virtually all of the suffer tax losses plus the added cost of the L-1011 unemployment and welfare benefits. A billion invested in the L-1011 unemployment and welfare benefits. A braze commercial transport to date bankrupitey trustee could upset by Lockheed, its suppliers, airlines, and Lockheed's costly settlements with the government. Costs of other vital programs Lockhead is conducting for the government-Poseidon missiles, Agena satellites, anti-submarine aircraft, military transport planes-could increase substantially

Another result would be a monopoly of the huge market for wide-bodied trijets by a single alreraft, the DC-10. This market has been estimated by many sources as exceeding \$20 billion; A monopoly could act to the detriment of airlines, the traveling public, and airport neighbors.

the TriStar's engines, delayed the taxpayer in the proposed loan program and increased cash needs, Just guarantee. Tressury Secretary John when the corporation's ability to Connelly says the risk is minimal. program and increased cash needs. Just Businites. Treasury Secretary John when the corporation's ability to Connelly says the risk is minimal. borrow was reduced by the severe Lockheed's firm TriStar orders will losses, its need for financing grew, provide enough cash to repay the Lockheed needs an additional \$250 government guaranteed bank loans by million, and its lending banks require a the end of 1974. Meanwhile, the government guarantee before they will government would have first claim on a collateral pool more than adequate to collateral pool more than adequate to secure \$250 million in loans.

It is nothing new for the government to help siling industry. The Small Business: Administration has outstanding more than \$2.5 billion in loans and guarantees to more than 100,000 small enterprises across the nation. Other sircraft and automotive

What's the Weather, Buoy?

A new buoy system for recording and surveying occanographic and meteorological data is our rently being tested in the North Sea and the Baltic Records data is transmitted to land. To supply the power for the elecconic measuring and transmis sion set, three nickel cadmium batteries, recharged by solar cells, are incorporated into the buoys.

County Tax Rolls Ready

Heal and personal property fax rolls for Hanconk County have been equalized for 1971 according to a notice received from the Board of Supervisors, and are now open for hapection by property owners. Any property owners.

SOCIAL SECURITY.

Paople who may soon be eligible for social security benefits can make the claim process easter by selling their birth cartificates or other proofs of age in advance according to Caril V Stephens, acting district manager of the Gultport social security office.

Guisport social security office.
Proof of are is a key factor in processing claims for social security benefits. Birth dates and relationships also must be established for dependents entitled to benefits.

dents entitled to benefits

"A birth or baptismal bertificate recorded before your
fith birthday is usually adequate proof of your age," Mr.
Stephens said, "But if either document is registered in
a distant State or foreign country, it's advisable to send for
a copy well ahead of when you'll
peed it."

Any social security office will help you develop proof of age, Mr. Stephens said.

If a certificate was filed when you were born," he said, "social security can tell you sow said where to write to.

Applying a copy

If a birth or baptismal carefficate is used as proof of
age for social security the
constant must be either the
original or a copy carticled by

Proof of any in a key in Or in proof and the column total and the column of the colu satisfied with his fax assessments may file his objection at the office of the alexage the Board of Supervisors at far August 5, 187.

TOSOUR NEIGHBORS RIANGOCK COUNT

FROM: THE FOLKS NEXT DOOP

We who live in the 3 Coast counties are a close family and our problems and our hopes and dreams are very much plike we all need a strong tourist business, a healthy seafoodlinds. and an inviting climate for new industry - and we've come a long way toward some of these goals. Our seaway in Harrison County, our other neighbor's Bayou Casotte development, and your new airport and port development are steps in the right direction.

and you've got a a man we, all of our Coast, really needs, you are represented in the Mississippi House of Representatives by HON. WALTER PHILLIPS, the Senior man-in-service from our gree of South Mississippi. We know that Mr. Phillips first love by hose and always will be to you, his home County. But he has done so much good for our entire area, we felt you ought to know what your neighbors think of your Representative. He has served South Mississippi in general, and Hancock County of the particular, with honor and is a credit to your good judgment.

We urge you to give him an overwhelming vote of confidence and you will have contributed a great deal to the future not call of South Mississippi and our beloved Coast.

WALTER PHILLIPS

Too, if he a lot shorter a name than West Hancook County Harbor and Industrial Area.

The cost question has not yet arisen and can only be becaus aften the feestbility study is complete. Unlessing the laste of sho pays for start is held up but sufficient to say that the federal government will probably have to fork our most of the cash.

Now Into the Port Blenville bit.
At the present this the port is just a little more than a grean in its mother's eye but much is

The idea behind Port Blan ville is that to provide com-plete facilities to industry, a deep water outlet for exports and imports must be in swid-

This facility, of course, is designed to basically handle the raw and finished product equirements of the industries in the West Hancock County Harbor and Industrial Area, adjacent to the port site. In time, over the next decade, the entire Mulatto Dayou area point will become the center of West Mississipp's Constal

It is presently intended to tie in a deep water channel to the Gulfport outlet, just north of Ship Island. This to take advantage of present channels, maintained by the Corps of Engineers, scheduled to be

udy of the Port Blenville project and they should begin with the project early next year. This funding and directive came about after the Hancock County Port and Harbor Com-

in Washington, D.C.

Basically that is the story of the deep water program.

Probably, we expect, long fleg.

Sum for sirportrumway and facultive expansion. The balance is earmarked for Bayout Caldy and other recreational facilities.

In summary therefore, the Hancock County Port and Har-bor Commission has spread the proceeds from the two bond assess as thin as it could to provide staximum benefits to the county
The commission, as we have
said, is charged with the responsibility of constructing and
operating the port, the simport,

Well spent

the new public facilities at Bay-on Caddy and some recreational Some of the money has been utilized for construction at the port. Not only as direct pay-ment for contracts and engine-ering but in the form of matching The same is true at the airport.

Altogether the port commission has managed to parley the bond Issue funds into a real nest agr for the county. "As we mentioned in the issue on finances, during the last fiscal year the commission

managed to earn more than \$140,000 on investments. Of despened in the near future, the bond issues, in approxis

CIBEL MANDENED A VAN ANTA

and the big river came from two suchas words is the Alpon-cus intakers, mist and and re-resemble by river, and the same was defined to the black was admissed to the bases it was admissed to the bases in the same was washington. No one knows was washington. No one knows was washington. No one knows too access the arrange and ps. The big cities of prominent men, but many it is amalier places, especially in the Detti country and along the Natches Trace, simply anglested the Indian names of the villages they replaced.

So first let's set flows a chort list of the more common or choosey names another on up with a manes of Mississippi lowns and places.

boque or bok - creek hachs or achs - river nachs or sche - river chitto-big falays - long sahs or ushs - place tasks - warrior chis or sols - people nome or houms - rad mings or mings - onist inse or looss -black fulli-rook Take the last word and com-

Take the law word and combine it with rives, and Book
River becomes Talishatchie.
Bogaluss is Black Creek Tishomingo means watter shief.
Copial-is-from the Ghoctaw
tot pays, meaning 'Crying
panther's and their word for
cypress was shockalo which
was Anglicised to Shockalos for
the mame of a creek in Scott
Comey. Okibbeha County and
Greek are from oka-ittideska,
meaning 'the water light'
The word for box maker was
frombiliable and when it was
supposed to see the water
are many variations for spelling, Combigue. Walls many
Ghocke and Chickness words
are known, forming quite a
respectable wocabulary, oddly
anough the meanings of the pames of the index themselves are
not known.

HECT Sylvánil Ladner, Jr. Sheriff Of Hancock County

As the campaign for sheriff comes to a close, I can sincerely say that I have enjoyed making this race and appreciate the wonderful hospitality of the many people of the county who have given me encouragement and support. I wish I could have talked personally with every voter in Hancook County, but since this is impossible, I earnestly invite all my friends to persuade their friends and pelgibors to support my candidacy.

My campaign theory is based on the belief that people are not interested in promises but performances,

It is with full understanding of the responsibilities and duties of the Sheriff's office that I seek this important posttion; The office of Sheriff requires a progressive minded person; one who has experience, patience, understanding, and ability to cooperate and work in harmony with other police officers.

Most of the people in the County, those who have opposed me in the past as well as those who have been my supporters, seem to generally agree on two conclusions concerning me personally and that is I made you one of the best and most honest Sheriff Handock County ever had.

I know that I can not perform miracles, but with the help of good deputies and with the cooperation of the public, I believe that I can greatly improve the image of Hancock County and of the Sheriff's office by eleminating our County

county and of the Sheriff's office by eleminating our County of our greatest danger -- drugs and reducing crime.

Remember the vote you will ose the cast. It will be for four long years, and the results of this vote can not be changed. So before you go to the polis, check the experience, qualifications, hopesty and past performances, of all the candidates and check with yourself who you chink and know will make the best Oberit. When you do mist thinks you will cast your vote for Sylvan A Ladger II. you will cast your vote, for Sylvan J. Ladner, Jr., as you
